Turning a bad  
hair day into  
a great prayer day!

Once she steps in front of the audience - it is obvious that she is where she is suppose to be, helping others to experience the joy of the Lord. It is her purpose, her pleasure and her passion.

Listening to her personal testimony **Divine Designs** you might think that you are watching a scene from Steel Magnolias as Frankie reminisces about growing up down south in the days of **big hair** and **Elvis**.

But in the midst of the laughter you will discover a woman who understands about true disappointment, real heartache, and the amazing grace of God's love. Her story is one of hope that every woman should hear.

For a night of good ole fashion fun, that tickles the funny bone and touches the heart, contact Frankie Sherman for your next event.
